## The House of Objects

A day course, for those interested in setting up a creative recycling resource centre/space. The course will be based at the House of Objects Creative Recycling Centre in North Tyneside, and will use this as a learning example. Participants will work together to develop their own vision, and plan to suit their requirements

**Date:**  
**Friday 20<sup>th</sup> January**  
**2012**

***Do you want to set up your own recycling centre?***  
***Are you inspired by the ReMida Centres of Reggio Emilia?***  
***Do you need support in visioning and making it happen?***

**Sightlines Initiative** is an early education charity, developing projects, supporting schools and providing continuous professional development opportunities for educators in the UK

The **House of Objects** is an environment which inspires new creative play opportunities for children through the use of recycled, natural and 'intelligent' materials from local sources. Children and adults work alongside artists to realise the creative potentials of discarded remnants and unexpected treasures in their everyday world.

**“ Children need the freedom to appreciate the infinite resources of their hands, their eyes and their ears, the resources of forms, materials, sounds and colours.”**

Loris Malaguzzi, 1992
